Do you need additional space for sports equipment or other space-consuming items? Try a combination of Fabia Roof Systems! Whether you go in for winter or water sports, or you like biking, you have to start with a roof rack or cross-bars for vehicles with Roof Rails. To this you can fix any other roof system – such as luggage boxes and ski boxes or bike carriers.

Making use of lightweight materials Škoda Roof systems do not introduce excessive weight and are both a safe and an elegant space solution. Please ask your Škoda Retailer for information about the current offer of Škoda Bikes. Your Fabia can also pull a trailer – with the original towbar you can pull up to 1,200 kg.

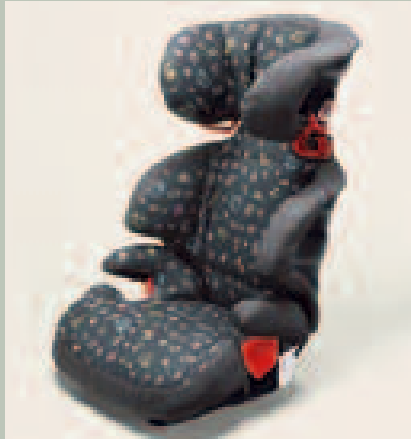

SAFETY FOR THOSE YOU LOVE

Child seat Easybob maxi (DDT 000 002A) £110.00

Child seat Isofix Duo Plus (DDA 000 003A) £257.00

Child seat Kid (DDA 000 004) £140.00

The high quality safety aspects of original Škoda child seats were verified in demanding tests and simulations.

Name	Category (according to weight in kg)			
	0+ (0–13)	1 (9–18)	2 (15–25)	3 (22–36)
Easybob maxi DDT 000 002A	0–13			
Isofix Duo Plus DDA 000 003A		9–18		
Kid DDA 000 004			15–36	

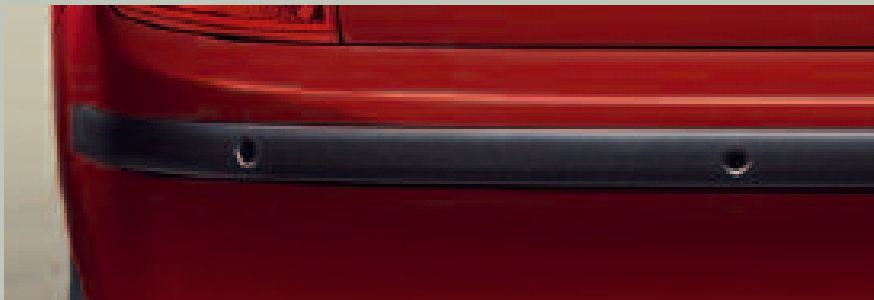

Škoda UK recommends that children under the age of 12 should be seated on the rear seat rather than on the front passenger seat.

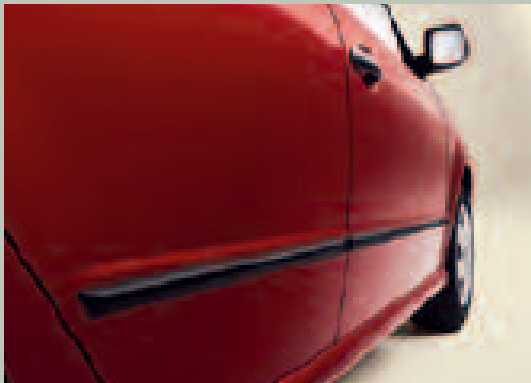

The original range of Škoda accessories includes a number of options for the comfort and safety of our smallest passengers. Child seats are safe only if they fit the height and weight of the child. You can choose various types of seats for children up to 12 years of age, or, as applicable, up to a

weight of 36 kg. The standard equipment of all Fabias includes the special anchoring for two child seats with the ISOFIX system, which is currently the safest means possible, as the seat becomes a part of the vehicle.
